

## Smart & Intelligent Monitoring System

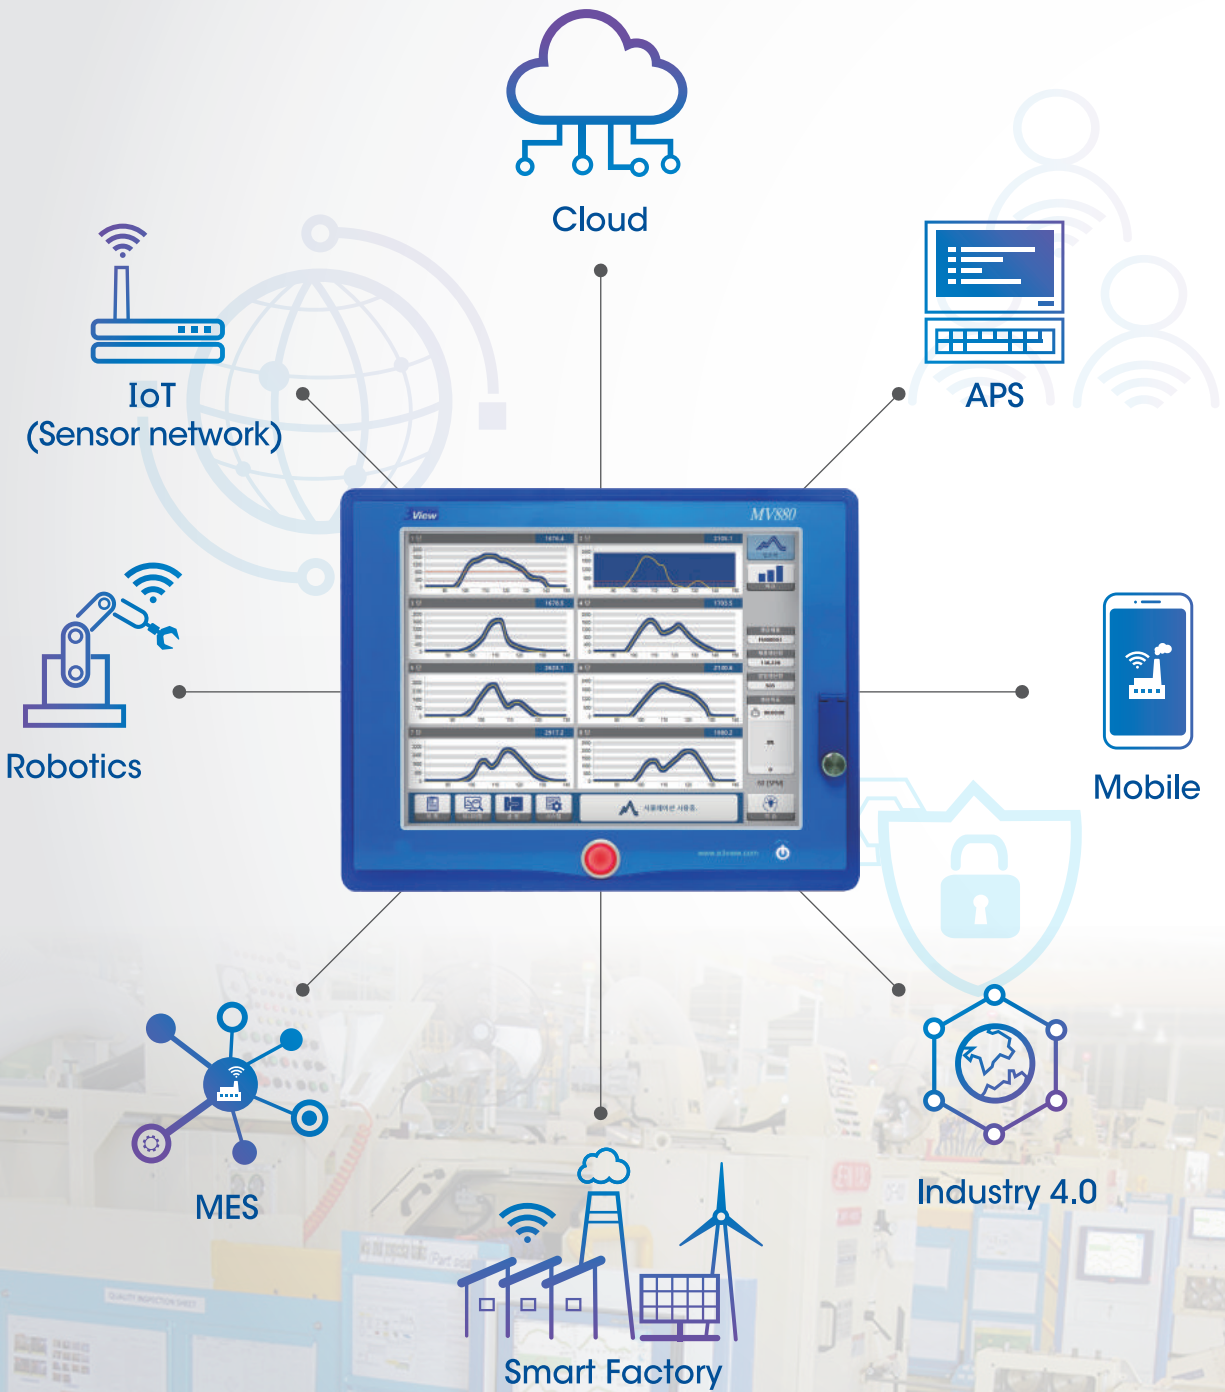

MachineView™

# MV880

# Smart & Intelligent Monitoring System

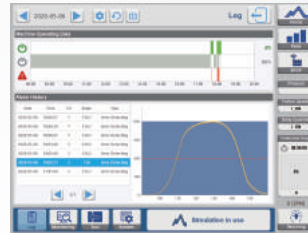

# MV880

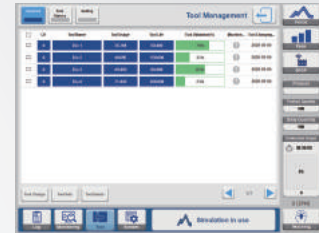

## Functions

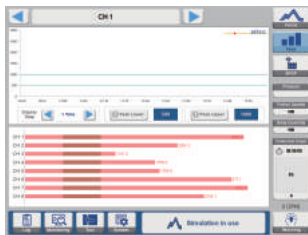

Process quality stabilization based on data tracking & intelligent analysis algorithm

Monitoring parameter management by automatic record saving for bad production

Real time alarm & machine stop In case that tool reaches its lifetime

Forming force trend & limit management

Simple & eidetic user interface

8 ch. simultaneous screen & individual channel

### Others

- Auto teaching
- Multi Counter
- Ghost shift
- Absolute Force
- Parameter saving by item
- Sensitivity control by channel
- Window restore
- Detection device to machines
- Tolerance zone
- SPC&MES Multi terminal

## Smart Factory

# MV880

Smart & Intelligent Monitoring System

MV880

### Easy to Use

- Auto teaching
- Visualization
- Optimized Monitoring

### AI (Artificial Intelligence)

- Pattern analysis
- Signal tracking
- Process stabilization

### Powerful function

- Tool Life Management
- Defect detection history
- SMART Real-Time sensor network

## Technical data

Model	MV880
Display	12.1" Touch I/F
Size(mm)	330 x 258 x 65
No. of channels	8
Power Supply	DC24V
External Interface	USB-5ports RS232-2 Port LAN - 1 Port DI3/DO3 SPI - 1 Port
ETC	Auto Cooling FAN

※ Specification can be changed without notice.
